Summary

Full Stack AI Engineer and B.Sc. IT graduate with internship experience designing and deploying production-grade ML pipelines, recommendation engines, and NLP systems. Skilled in Scikit-learn, TensorFlow, and Python with validated outcomes including 90%+ model accuracy and 60% reduction in processing time. National hackathon finalist with a 9.6 CGPA who can ship the full product stack independently.

Education

Vidyalankar School Of Information Technology (VSIT) Aug 2023 - May 2026
Bachelor Of Science - Information Technology
CGPA - 9.6

Professional Experience

Fundora | AI/ML Intern Jun 2025 - Dec 2025

- Engineered a production-ready data pipeline using Python and Apify to scrape and clean 5,000+ records, achieving 100% schema consistency and reducing manual processing time by 60%.
- Designed and trained a collaborative filtering recommendation engine with Scikit-learn, achieving 85% offline precision and delivering a deployment-ready baseline for platform launch.

Acmegrade | Machine Learning Intern May 2024 - Jul 2024

- Benchmarked SVM, Random Forest, and Logistic Regression on a medical diagnostic dataset, selecting the optimal model via cross-validation and ROC-AUC analysis to achieve 90%+ classification accuracy.
- Built an NLP-driven content recommender using TF-IDF vectorization and Cosine Similarity, delivering a production-ready framework validated against precision and recall benchmarks.
- Executed end-to-end EDA using Pandas and Seaborn, applying feature scaling and dimensionality reduction to prepare high-quality training datasets across two distinct ML domains.

Skills

AI & ML - Scikit-learn, Tensorflow, Gemini API, Prompt Engineering	ML Libraries - Numpy, Pandas, Matplotlib, Seaborn, SHAP, LIME
Languages - Python, Javascript	Backend - FastAPI, Node.js, Express.js, REST API Design
Database - MySQL, MongoDB	Frontend - React.js, HTML, CSS, Tailwind
Tools & Devops - Git, Docker, Vercel, Render, Netlify, VS Code	

Projects

AI Visa Success Advisor

- Integrated Gemini LLM via REST API to extract structured JSON from visa documents and generate success probability scores, implementing an NLP-driven document analysis pipeline.
- Architected a FastAPI + Node.js backend with a React/Tailwind frontend, delivering automated PDF report generation for real-time applicant feedback at scale.
- Tech: Python, FastAPI, Gemini LLM, Node.js, React, Tailwind

Veri-Fake AI

- Trained a custom deepfake detection model on 1,000+ Kaggle-sourced video and image samples, implementing a full data curation, preprocessing, and training pipeline from scratch.
- Built an async FastAPI inference backend with a React 18 frontend using custom polling hooks, enabling real-time authenticity scoring on media-heavy ML workloads.
- Tech: Python, TensorFlow, FastAPI, React 18, Kaggle datasets

Certifications & Achievements

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle
- MongoDB Course Certificate - MongoDB University
- Intro To IoT Certificate - Cisco Networking Academy
- AWS Cloud Foundation - AWS Academy

Achievements

- Winner | SIH Intercollege Round
- National Finalist | Hackcrypt Hackathon
- Finalist | Tantravihar 2026
- Zonal Qualifier | Aavishkar Research Convention
