Summary

Full Stack AI Engineer and B.Sc. IT graduate with hands-on internship experience building and deploying end-to-end AI-powered web applications. Proficient in React, Node.js, and FastAPI, with a proven ability to integrate LLMs and ML models into production-ready platforms. National hackathon finalist with a 9.6 CGPA and a track record of shipping measurable outcomes.

Education

Vidyalankar School Of Information Technology (VSIT)
Bachelor Of Science - Information Technology
CGPA - 9.6

Aug 2023 - May 2026

Professional Experience

Fundora | AI/ML Intern
Jun 2025 - Dec 2025

- Engineered a production-ready data pipeline using Python and Apify to scrape and clean 5,000+ records, achieving 100% schema consistency and reducing manual processing time by 60%.
- Designed and trained a collaborative filtering recommendation engine with Scikit-learn, achieving 85% offline precision and delivering a deployment-ready baseline for platform launch.
- Executed end-to-end EDA using Pandas and Seaborn, applying feature scaling and dimensionality reduction to prepare high-quality training datasets for downstream ML models.

Acmegrade | Machine Learning Intern
May 2024 - Jul 2024

- Benchmarked SVM, Random Forest, and Logistic Regression on a medical diagnostic dataset, achieving 90%+ classification accuracy validated via cross-validation and ROC-AUC analysis.
- Built an NLP-driven movie recommender using TF-IDF and Cosine Similarity, delivering production-ready classification and recommendation frameworks across two ML domains.

Skills

Frontend - React.js, HTML, CSS, Tailwind
Backend - FastAPI, Node.js, Express.js, REST API Design
AI & ML - Scikit-learn, Tensorflow, Gemini API, Prompt Engineering
Tools & Devops - Git, Docker, Vercel, Render, Netlify, VS Code

Languages - Python, Javascript
Database - MySQL, MongoDB
ML Libraries - Numpy, Pandas, Matplotlib, Seaborn, SHAP, LIME

Projects

AI Visa Success Advisor

- Built a full-stack visa readiness platform integrating Gemini LLM via REST API to extract structured JSON from uploaded documents and score application success probability in real time.
- Architected a React/Tailwind frontend with a Node.js + FastAPI backend, implementing automated PDF report generation for personalized applicant feedback.
- Tech: React, Tailwind, Node.js, FastAPI, Gemini LLM, Python

Veri-Fake AI

- Developed an end-to-end deepfake detection platform processing video and image inputs in real time, training a custom model on 1,000+ Kaggle-sourced synthetic media samples.
- Built a React 18 frontend with asynchronous polling and a FastAPI backend with async processing, enabling low-latency ML inference on media-heavy workloads.
- Tech: React 18, FastAPI, Python, TensorFlow, Kaggle datasets

Certifications & Achievements

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle
- MongoDB Course Certificate - MongoDB University
- AWS Cloud Foundation - AWS Academy
- Intro To IoT Certificate - Cisco Networking Academy

Achievements

- Winner | Smart India Hackathon (SIH) Intercollege Round
- National Finalist | Hackcrypt Hackathon
- Finalist | Tantravihar 2026
- Zonal Qualifier | Aavishkar Research Convention
